REBOUNding - Steady But Slow

By Susan Capparelle

Ozone Usage

Ozone, the energy efficient alternative to conventional laundry systems, is catching on industry wide and being used by reputable hotels according to Phil Sprague in his August, 2004 article "Ozone Laundry systems save water, energy and chemicals," published in the Rooms Chronicle.

"It's an energy saving technology and good for the environment, but you just want to be sure that you're dealing with a reputable firm," advised Sprague who works for PSA Energy Consultants based out of Minneapolis, MN. The use of ozone is reported to save laundries water and chemical costs.
